Additional Product Information:

Your System 64 Family Code will be established for your dealership and will be verified with a completed registration and authorization record form. It is strongly recommended two sets of Access Keys are ordered with your initial lock order; the first set can be used upon lock installation. The second set can be kept for immediate use if an emergency code change is required due to a lost or stolen key. Maintaining control of your keys will keep your system secure; regular key audits should be included in your standard operating procedure.

Reorder and Warranty Information:

Lead time for lock and key orders is 2 - 3 weeks from receipt of order, minimum original order \$2,000.00, reorders \$100.00. Prices are subject to change. Terms are net 30 days, subject to credit approval. Shipping charges are FOB Greenville, South Carolina, 29607. Our products carry a one-year warranty covering defects in material and workmanship from date of shipment. Our liability on any claim, including those for defective material, is limited to refund, repair, replacement, or a combination of such actions as we elect. Acceptance, use or future processing by you voids any claims by you as to material so accepted, used or processed. Request the return of CompX Security Products standard products must be submitted to a field sales person. Written authorization must then be obtained from CompX Security Products at the address below.
